

HiDevs × Mastra AI Agent Hackathon 2026

Round 2 Guide

Congratulations on qualifying for **Round 2!** 🎉

You have successfully cleared the architecture stage. It's now time to build your production-ready AI Agent using **Mastra, Qdrant, and Enkrypt AI**.

Timeline

Round 2 Starts: Immediately

Grand Finale (Offline)

OJOne, Bengaluru

12 July 2026

What You Need To Do

Round 1 was about planning, **Round 2 is about building**.

Convert your approved **PRD** and **Architecture** into a working AI application.

Your submission should include:

- Functional AI Agent
 - Frontend Application
 - Backend APIs
 - Mastra Agent Workflows
 - Qdrant Integration
 - Enkrypt AI Integration
 - Working Demo
-

Mandatory Technology Stack

Every project **must** use all three technologies.

Mastra

- Agent orchestration
- Workflows
- Tools
- Multi-step execution

Qdrant

- Vector Database
- Semantic Search
- Long-term Memory
- RAG

Enkrypt AI

- Output Evaluation
- Hallucination Detection
- Safety Guardrails
- Risk Analysis

Projects missing any mandatory technology may be disqualified.

Final Submission

Submit the following on the **HiDevs Platform**:

- Project Name
 - GitHub Repository
 - Live Demo URL
 - Demo Video (3–5 mins)
 - Project Description
-

Demo Video Must Include

- Problem Statement
- Solution Overview
- Live Product Demo
- Mastra Workflow
- Qdrant Usage

- Enkrypt AI Integration
 - Future Improvements
-

Evaluation Criteria

Your project will be evaluated on:

- Engineering Quality and System Design
 - AI Agent Workflow
 - Mastra Integration
 - Qdrant Usage
 - Enkrypt AI Coverage
 - User Experience and Innovation
 - Code Quality
 - Documentation and Demo Quality
-

Grand Finale

During the finale, teams will:

- Present their AI Agent
 - Give a Live Demo
 - Explain their Architecture
 - Answer Judges' Questions
-

Resources

Everything you need is available on the **HiDevs Platform** :

<https://app.hidevs.xyz/competitions/hackathons/hidevs-mastra-hackathon-2026?tab=resources>

Resources include:

- Mastra Documentation
 - Qdrant Documentation
 - Enkrypt AI Documentation
 - GitHub Repositories
 - And more
-

Important Guidelines

- Team changes are not allowed.
 - Build on your Round 1 architecture (improvements are allowed).
 - Keep your GitHub repository updated.
 - Test your application thoroughly before submission.
 - Submit before the deadline.
 - **Late submissions will not be accepted.**
-

Build. Test. Ship.

You are now among the selected builders.

Round 1 proved you can design. Round 2 is where you prove you can build.

See you at the Grand Finale!
